

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

## CORRECTION.

The statement made in this table in PUBLIC HEALTH REPORTS, No. 47, November 22, 1901, page 2732, of 1 death from bubonic plague at Salt Lake City, Utah, was an error in which the index was placed opposite Salt Lake City instead of *San Francisco*.
